

## Site Basics - Parents: Parent Notifications

If school has Parent Notifications turned on under **Site Admin | Configuration | Family Options**, then primary family contacts can opt-in to email notifications. The notification types are attendance and grades and will be sent once per day. Each notification will include relevant activity from the last 24 hours. These notifications will be sent out at a specific time designated by the school.

Access this in your **My Family | Contacts** | by clicking on the Primary Contact name.

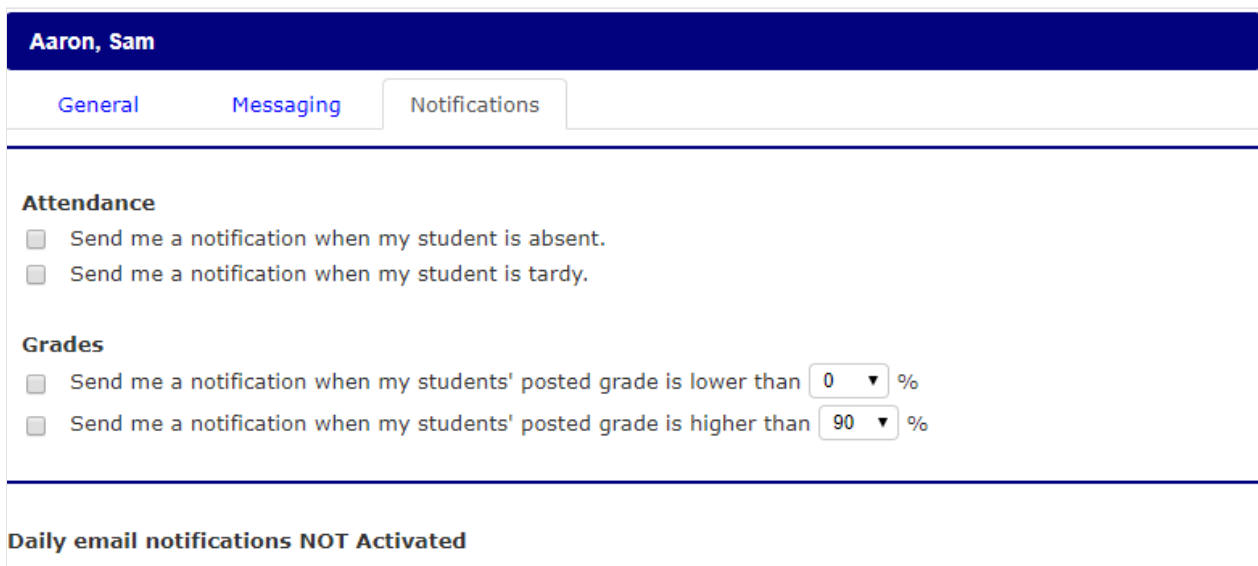

The screenshot shows the 'Family / AAR1706' interface with tabs for 'General', 'Contacts', and 'Students'. The 'Contacts' tab is active, displaying a table of family members:

Name	Primary	Relationship
Aaron, Sam	<input checked="" type="checkbox"/>	Father
Aaron, Cheri	<input checked="" type="checkbox"/>	
Balbiani, Tyler	<input checked="" type="checkbox"/>	
Balbiani, Juliana	<input checked="" type="checkbox"/>	Aunt

A green arrow points from the 'Primary' checkbox for 'Aaron, Sam' to a callout box that says 'Click on Primary Contact name'.

On the contact profile, go to the Notifications tab and select the notifications you would like.

Posted Grade refers to the posted average grade for a class, not an individual assignment grade.

The screenshot shows the 'Aaron, Sam' profile with tabs for 'General', 'Messaging', and 'Notifications'. The 'Notifications' tab is active, displaying the following options:

**Attendance**

- Send me a notification when my student is absent.
- Send me a notification when my student is tardy.

**Grades**

- Send me a notification when my students' posted grade is lower than  %
- Send me a notification when my students' posted grade is higher than  %

**Daily email notifications NOT Activated**
